

Wellesley Community Center Train Show November 2016

The Boston Metro Hi-Railers Club participated in the 2nd annual train show held at the Wellesley Community Center on Washington Street in the Town of Wellesley, MA.

The show exhibits filled up two rooms of the community center including the BMHR Club's new portable layout. The layout is constructed in two sections that are clamped together for operation. The two sections are stacked one on top of the other for transport in a van.

Five club members were on hand to operate the layout, welcome visitors and promote the club.

The club looks forward to participating in the next year's show and other similar community events.

BMHR Club's portable layout

Portable layout – Touching is encouraged
